

Chance and Fair Play:

A discussion of opportunity and equality.

Chance and Fair Play involves a tour of the ship *Balclutha* and a discussion of the subjects of equality and opportunity from three intertwined perspectives: social class, gender, and ethnicity. This program allows the audience to participate by sharing personal experiences and opinions while a park ranger facilitates the dialogue. Connections will be made between stories of the ship and modern day life and is perfect for groups seeking communication and teambuilding.

Program Length: 90 mins.
Ages: High School & Adult
Group Size: 30 or less
